Area Director-Legal Aid Ontario
17070 Yonge Street, Main Floor
Newmarket, ON L3Y 4V8

Dear Sir or Madam,

My name is ██████████. My children (██████████-16, ██████████-15, ██████████-12) and I would like to apply for legal aid for a civil lawsuit against their abusive mother, M. ██████████ of Richmond Hill, ON and her enablers, the Provincial Government of Ontario, the Children's Aid Society of York Region and the York Regional Police.

It is our contention that we have been seriously harmed by their mother's sporadic physical and constant verbal, emotional and financial abuse. Your office is all too aware of the time and trouble I've gone through to try to hold her accountable for her crimes and now my children have chosen to join in my efforts to expose her abuse and the complicity of those powerful individuals who empowered her to do it.

My family has been devastated. My boys and I suffer intense psychological pain because of the endless psychotic behaviour of their mother and, in my case, am suffering physically because of their mother's refusal to allow me surgery for a torn rotator-cuff and another injury which I can't mention at this time.

Area Director, I have been diagnosed as suffering all the same physical and emotional ailments that a battered-wife suffers, but because I am a man, I have met only resistance from the "legal" system and cowardly lawyers, too afraid to make waves in this cruel and corrupt society. I have been the target of a personally motivated attack and smear campaign and by children's injuries are collateral damage of these attacks. We have started family counseling recently and have made very good progress exposing the true problem but more intense examination will be required to ascertain to full extent of the psychological and physical injuries to us.

It's not just me complaining anymore. My three sons have joined in the chorus and we all demand justice. We have suffered long enough because of the failures of the very people we turned to for help, a "legal" system that became accessories to child and spousal abuse. Again, I come to you begging for help, but not for myself. Please keep my children in mind as you make your decision.

Please contact us to make arrangements to go over our evidence with us. The problem is finally being exposed and my boys and I need protection, not just from their mother, but from her co-conspirators as well. Thank you.

Sincerely Yours,

D. W.
